

HOW DO WE BRING LIFE TO OUR ONLINE GATHERINGS?

Design, support and facilitation of large-scale participatory events and conferences

We turn your virtual event into an engaging experience your participants will not forget.

We design, provide technical support and facilitate highly interactive participatory conferences, gatherings and meetups **online**, from small to large groups. We specialise in Open Space Technology, Art of Hosting, World Café, Appreciative Enquiry, Liberating Structures, Self-Organised Learning Environment and peer-2-peer based Emergent Learning Labs.

We use a platform which enables us to work through a combination of Zoom video-conferencing (or other video platforms), independent breakout rooms (where participants can move themselves) and a number of collaborative online documents and tools as required. The focus is on total participant engagement enabling conversations that truly matter to them.

Nowadays more and more organisations are taking their conferences and larger meetings online. We can take your offline conference and convert it to an online participatory event. We also work with facilitators who largely run their own events themselves, but may need a little digital design and technical support to make their events come alive online.

The screenshot displays the Open 2 Flow Showroom interface for the British Fascia Symposium Online 2020. The interface is divided into several sections:

- Top Bar:** Shows the event name "Open 2 Flow Showroom" with an "Edit" button, the user name "François Knuchel", and a notification icon with the number "20".
- Main Content Area:**
 - Left Panel:** Includes a "Join Video for Main Room" button, a "Help" button, a video feed of a large group of people in a circular arrangement, a "0:00" timer, "Hide Breakouts" and "Admin Controls" buttons, and a "Welcome and Introduction" section with a "Main Room" button. Below this are sections for "Resources and Tools (tabs)" with "Room 1", "Non-embedable tools" with "Room 2", and "Default Basic (Zoom)" with "Room 3".
 - Center Panel:** Features a "WELCOME & INTRODUCTION" section with a "Join Video for Room 1" button, a "British Fascia Symposium Online 2020" event card for Friday, 15 May 2020 (7:00am Eastern, 11:00am UTC), and a "Join the event" button. Below the event card is a "Create and Edit Your Profile" and "View Map of Delegates" button.
 - Right Panel:** Includes a "Video Demonstration" section with a "Join Video" button and a "QiQoChat Brochure" section with a "Click to RSVP" button. Below these are sections for "29 Present" and "297 RSVPs" with grid views of participant avatars and a "Live Chat" button.

Please visit our Sample Event ([Showcase](#)) to get a sense of how the platform works and see the numerous design features which are possible. We will work with you to design a format suited to your conference needs. Contact us to ask for a demonstration.

Bringing meaning to your online generative dialogues
